

NAKUL B

[8762937949](tel:8762937949) | nakul123426@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | [LeetCode](#)

EDUCATION

B.E. in Computer Science and Engineering, BMS Institute of Technology and Management (Expected 2027)

GPA: 8.5/10 | Relevant Coursework: Data Structures, Algorithms, Databases, Artificial Intelligence

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Go, C, C++, SQL, Java, Python

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Cloud/DevOps: AWS, Docker, Vercel, Cloudflare, Linux, Render

Messaging & Caching: RabbitMQ, Redis

CS Core: Data Structures & Algorithms, OOP, Database Design, System Design

Tools: Git, Postman, VS Code, GitHub Actions

PROJECTS

Coding Assessment Platform | *MERN Stack, Go* | [GitHub](#)

- Developed a scalable coding assessment platform supporting problem authoring, automated evaluation, coding assessments, and result analytics.
- Built a Go-based judge service for secure multi-language code execution, automated scoring, and test-case validation.
- Integrated Redis caching, RabbitMQ-based asynchronous processing, and Docker containerization to improve scalability and execution efficiency.

Exam Marks & WhatsApp Notification System | *React, Node.js, MongoDB* | [Live](#) | [GitHub](#)

- Developed a school management platform supporting student records, class management, examinations, marks entry, and role-based access control.
- Integrated Meta WhatsApp Cloud API to automatically deliver examination results and notifications to parents.
- Implemented JWT authentication, refresh-token rotation, CSRF protection, rate limiting, audit logging, and Excel-based bulk import/export workflows.

Retail ERP System | *React, TypeScript, Node.js, MongoDB* | [Live](#) | [GitHub](#)

- Built a full-stack retail ERP solution featuring inventory management, POS billing, barcode scanning, purchases, expenses, and analytics dashboards.
- Implemented real-time revenue, profit, stock monitoring, and category-based product management workflows.
- Developed secure JWT-based authentication, role-based access control, and automated inventory updates linked to purchase operations.

ACHIEVEMENTS & CERTIFICATIONS

- Solved 160+ problems on [LeetCode](#), strengthening problem-solving and algorithmic skills.
- Google Machine Learning Crash Course – Currently expanding knowledge in Machine Learning and Artificial Intelligence.
- Web Development Bootcamp (Apna College) – Completed comprehensive full-stack web development training.
